

Alexandra Kellen is a senior program and portfolio management leader in telecommunications, recognized for aligning strategy, people, and processes to deliver complex, cross-functional initiatives. As Senior Manager, Program Management at Charter Communications, she partners closely with Product Management and Product Development to drive portfolio alignment and development for new data products. Alexandra has led transformative platform-modernization efforts that improved operational efficiency, drawing on cross-functional leadership experience in engineering, program delivery, and quality. Her work includes establishing centralized analyst capabilities, embedding risk/issue and metric governance, and overseeing global development and QA operations.

A dedicated member of the WICT Network: Rocky Mountain since 2020, Alexandra has volunteered with Tech It Out, Walk of Fame, and General Programming, and currently serves as Director of Membership. In this role, she helps lead major chapter events — including the Exercise and Recognize Event, Fireside Chats, Summer Social, and cross-industry collaborations — while advancing member growth and engagement. Guided by the WICT Touchstones, “Know Yourself” has been a catalyst for her leadership, fostering self-awareness, goal setting, and balance across work, volunteer, and personal life. She also exemplifies “Connect,” building community and elevating the strengths of every team member.

Alexandra is Scrum Fundamentals Certified, SAFe PO/PM certified, a Six Sigma Yellow Belt, and PMI-certified. She completed the Master-level C4PM program at the University of Denver’s Daniels College of Business and is fluent in German.
