

Marjorie Sedillo is an AI/ML leader with over 15 years of experience in the telecommunications industry. She currently leads the shared Applied AI practice at Spectrum, where she oversees a cross-functional team of data scientists, machine learning engineers, and software engineers. Her team's work has enabled enterprise-wide improvements in internet quality of experience and accelerated the adoption of generative AI.

Marjorie is passionate about using data to simplify decision-making and create scalable solutions to complex business problems. She believes in fostering collaborative, high-performing teams through mentorship, transparency, and continuous learning.

Prior to Spectrum, she was a consultant at Accenture, providing technology consulting services for Fortune 500 telecommunications companies. She holds a Bachelor of Science in Management Science from Southern Methodist University's Lyle School of Engineering, where she also minored in Mathematics and Economics. Outside of work, Marjorie enjoys reading, Pilates, and spending time in the Colorado outdoors with her husband and pre-school aged daughter.
